

Ankita Patel

SOFTWARE DEVELOPER ENGINEER

Gurugram, Haryana, India | ankitajob248@gmail.com | +91-9569378421 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend and Software Engineer with experience in **JavaScript, React.js, HTML, CSS, REST APIs**, debugging, and web application support. Skilled in **troubleshooting software issues, interpreting code, resolving bugs, and maintaining responsive web applications**. Familiar with **Angular basics, Python fundamentals, JSON handling, and API integration**. Experienced in developing scalable applications, collaborating in Agile environments, and delivering clean user-focused solutions. Strong problem-solving, analytical, and communication skills with ability to work in fast-paced technical environments.

TECHNICAL SKILLS

Languages

JavaScript (ES6+), Python (Basics), JSON

Frontend

React.js, Angular (Basics), HTML5, CSS3, Responsive Web Development

Backend & APIs

Node.js, Express.js, REST APIs, API Integration

Databases

MongoDB, PostgreSQL, MySQL

Debugging & Support

Troubleshooting, Bug Fixing, Software Maintenance, Code Interpretation

Tools & Platforms

Git, GitHub, VS Code, Postman

Soft Skills

Problem Solving, Communication, Multitasking, Agile Collaboration

WORK EXPERIENCE

NOC Engineer / Software Developer

Nov 2024 - Feb 2026

Cemtics Solution Pvt. Ltd. · Manesar, Haryana

- Maintained enterprise-grade infrastructure with strong focus on **system performance trade-offs, high availability, load balancing**, and **distributed systems** reliability — directly building skills for **scalable software engineering**.
- Alongside NOC responsibilities, designed and developed **complex software modules** using **Java and JavaScript** applying **object-oriented coding, system design principles**, and **end-to-end feature ownership** in personal projects.

Full Stack Developer Intern

Jun 2023 - Aug 2023

Topperworld · Remote

- Developed, tested, and released **high-quality features** using **Java-aligned OOP, JavaScript, Node.js, REST APIs** and **SQL/NoSQL databases**; designed **scalable software modules** with focus on **high availability and system performance**.
- Performed **code reviews and design discussions**; worked directly with **product teams** to drive **customer impact**; participated in all phases of **Scrum software development cycle** as part of a collaborative team.

PROJECTS

Nova Vest AI — AI Commerce Platform – Java + JavaScript + Node.js + REST APIs + Distributed

[GitHub](#) ↗ [Live](#) ↗

Architecture

- Designed and developed **complex, scalable software modules** with **service-oriented architecture** and **asynchronous data flows**; applied **Java OOP, system design principles**, and **high availability patterns** for **enterprise-scale** feature delivery.
- Took **end-to-end ownership** of features from design to deployment; implemented **REST APIs, operational data stores (MongoDB, PostgreSQL)**, and **distributed system** concepts with **CI/CD** pipelines.

Task Management Application – Java + JavaScript + React.js + PostgreSQL + SQL + REST APIs

[GitHub](#) ↗ [Live](#) ↗

- Built **scalable software module** using **Java OOP and object-oriented design**; designed **service-oriented REST APIs, SQL (PostgreSQL)** operational data store, and **high-quality features** following **Scrum** development cycle with **code reviews**.

Developer Portfolio – React.js + Next.js + Node.js + GitHub CI/CD

[GitHub](#) ↗ [Live](#) ↗

- Deployed with **CI/CD pipelines** demonstrating **end-to-end feature ownership, system design**, and **scalable software development** capability.

EDUCATION

BS — Computer Science & Engineering

Jul 2020 - Jun 2024

Dr. A.P.J Abdul Kalam Technical University, Lucknow, India

CGPA: 7.95

State Board (UP) — Class XII & X

XII: 78% X: 86.66%

Kisan Inter College, Rajgarh, Mirzapur, Uttar Pradesh
